Trusted Experience

AdventHealth for Women is home to world-class physicians, specialists and care teams that place special focus on the health and well-being of both mother and child throughout the pregnancy journey. Our services include high-risk pregnancy management, fertility care, advanced fetal medicine, breastfeeding support and parent education. You won't find a more integrated, comprehensive pregnancy-care destination in Florida.

Neonatal Intensive Care Unit

Occasionally, there are times when things don't go as planned, and babies need an extra level of care. That's why we have the largest neonatal network in Central Florida. Our level 3 neonatal intensive care unit (NICU) provides access to the highest level of newborn care.

The NICU has a world-class team of neonatal specialists, supported by the newest technologies and techniques, compassionate and experienced nurses, and the latest treatments to emerge from research labs around the globe. These professionals are focused entirely on the care of critically ill infants, so you can be confident that your baby is in the best hands.

After you leave the hospital, our postpartum support groups provide ongoing lactation support. Be sure to visit the Breastfeeding Support and Education Center at AdventHealth for Women in Orlando, which offers:

- Personalized nursing-bra fitting (by appointment)
- A dedicated phone number you can call to talk about breastfeeding issues at 407-303-7650

Parenting Classes

The goal of our parent education classes is to enable you to start this new phase of your life with confidence and ease. We offer a variety of classes that cover topics such as physical and mental preparation for labor and birth, epidural anesthesia, breastfeeding, newborn care and more. Because they fill up quickly, we recommend registering for classes during your second trimester and taking them in the third trimester. A comprehensive online class is also available.
